

COILTEK'S NEW ELITE INNOVATION.

The 14" Elite Mono coil, giving your SD, GP and GPX detectors a new lease on life. More sensitive, more depth! Go grab yourself a new Coiltek Elite Mono!

Thanks for making an awesome coil the 14" Elite Mono. I couldn't be happier. So impressed with the sensitivity and response this coil gives, from tiny little gold nuggets weighing less than 0.1g to the thumper I found at 618g.

I found the 618 gram next to surfacing under the mullock the old timers threw out. Well when I picked it up, there was no doubt that this was gold, the weight gave it away. I was stunned!!!! This nugget is the biggest I have ever found.

I also found a 40 g nugget nearby. It was that loud a sound that I thought it was rubbish and actually tried to kick it away. It turned out it was a foot down and was laying on its side in the ground.

– Tony

Okay man the 14" Elite Mono did it again! At a depth of 24" I had a very loud signal, it turned out to be a huge quartz specimen. The initial Boulder had over 3 ounces of gold in it.

This coil is amazing, so deep and so sensitive. I have more than two dozen other small gold/quartz specimens. I know many other coils of the same size would have missed the small amount of gold in them. Thank you for a great coil!

– Darren

My first opportunity to get out with the new Coiltek 14" Elite Mono Coil was a success. Not only did I find smaller targets others missed and even a couple deep pieces of trash, I also found the heavy yellow metal. When the trip was done, I ended up finding 8 nuggets for a total weight of 13.8 grams... and they were found in a wash that others had detected many times before. All in all, I really like this coil a lot and am looking forward to getting many more hours out in the gold fields with it!

It ticks all the right boxes for what I look for in a coil and more. Thanks for another fantastic product and giving us more options to find gold.

– Scott

11" & 17x11" ELITE COIL SIZES NOW AVAILABLE WITH A NEW 18" COMING SOON!
